**Q1- Count Hadoop(OUTPUT sshot)**

## Q2- Sum of EVEN(OUTPUT sshot)

The screenshot shows a virtual machine window titled "cloudera-quickstart-vm-5.4.2-0-virtualbox [Running]". Inside, a Mozilla Firefox browser is open to the Cloudera Live interface. The address bar shows the URL "8888/filebrowser/view/user/cloudera/EVENSUM/part-r-00000". The interface includes a navigation menu with options like HBase, Impala, Spark, Solr, Oozie, Cloudera Manager, and Getting Started. The main content area displays a file viewer for "part-r-00000" under the path "user / cloudera / EVENSUM". The file content is a table with two columns: EVEN and ODD. The table has two rows of data: EVEN 559536 and ODD 529462. The bottom of the screen shows a macOS-style dock with various application icons.

EVEN	ODD
559536	529462
